Green Flag Award, 2025

Springfield Infant School and Nursery

Award Level: Distinction

Focus topics:

Your greatest overall success:

This year you have made a significant difference to the environment by cutting the use of single use plastic in your school kitchen, and school lunches. By doing this you are creating a healthier and more sustainable future. Keep up the hard work!

We also loved...

- It's fantastic that the Eco-Schools programme has led to more hands-on outdoor education in your setting! Learning outside helps young people develop new skills and connect with nature. We especially enjoyed how you involved your families in a litter pick and even reused some items to create artwork, which is both thought provoking and skilful!
- We also love how your pupils are spreading their knowledge and passion for making a difference to their environment to their friends, family and wider community through their performances of 'Sir David Hattenscarf'. Not only are they making a difference to the world by promoting those changes they are also building their confidence and life long skills in Global Citizenship.
- Your acrostic Eco-Code is a thoughtful summary of the environmental ethos reflected throughout your application. We hope everyone in your school community reflects on it when making decisions.
- We love how comprehensive your Action plan is to enable you to meet your significant improvements for your setting. Taking part in the Big Bird Watch not only enlightened you to think about the resources you had to offer but also contributed to vital research, and provided educational opportunities.

Next year, why not try...

Your application has truly impressed our team. You've changed behaviours, inspired others, and made a significant impact. Our only advice is to continue building on your wonderful achievements next year, we would love to see your revamped pond, and your home grown food as they flourish next year. Great work!
