

Community

We want our children to develop a sense of pride in themselves and respect for others. We believe they need to have a highly developed emotional literacy and excellent manners in order to experience positive relationships. We believe in the power of the school community to change and enhance lives.

Communication

We want our children to become eloquent orators, speaking with confidence and fluency in a variety of situations. We believe that helping our children find their voice is as important as them becoming avid readers or great writers and will work to broaden vocabulary and encourage talk in all areas of learning.

Adventure

We are passionate about the health of our children. We want our children to lift their eyes from the screen to be excited by the real world, engaging in rich experiences to develop imagination. We will use competition to develop confidence and allow them to manage real risks by having fun and a little danger!

Initiative

It is vital that we nurture the natural curiosity of our children, enabling them to become independent in thought and action and encouraging them to imagine, enquire and become increasingly enterprising. We will give children opportunities to think critically, by solving problems and making choices.

Environment

We believe our children need to know about and understand the world that is beyond their immediate doorstep. They need opportunities to experience the richness of its diversity and show they care about its management and sustainability.

Possibilities

Children can not aspire to things they have never encountered. We will work to broaden our children's horizons, expanding their knowledge of the world of the work by nurturing their interests as well as encouraging fearlessness of what is new or unknown.
